

READ ME

When you download an application file from the Internet, OS X may pop up a message that reads: "ARTZONE_Start.app" is an application downloaded from the Internet. Are you sure you want to open it?"

To bypass this warning and launch the program. click OPEN while holding down the CONTROL KEY on your keyboard.

To permanently disable this warning message, go to the Apple Menu and select **System Preferences**. In the **Security & Privacy** section, under the **General** tab, select "**Allow apps downloaded from: • Anywhere.**"
