Independent Auditors' Report

The Board of Trustees The National Gallery of Art:

Report on the Financial Statements

We have audited the accompanying financial statements of the National Gallery of Art (the Gallery), which comprise the statement of financial position as of September 30, 2020, and the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Gallery as of September 30, 2020, and the changes in net assets and its cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

Emphasis of Matter

As discussed in note 2(t) to the financial statements, in fiscal year 2020 the Gallery adopted new accounting guidance, Accounting Standards Update (ASU) 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash*. Our opinion is not modified with respect to this matter.

Report on Summarized Comparative Information

We have previously audited the Gallery's 2019 financial statements, and we expressed an unmodified audit opinion on those financial statements in our report dated November 14, 2019. In our opinion, the summarized comparative information presented herein as of and for the year ended September 30, 2019 is consistent, in all material respects, with the audited financial statements from which it has been derived before the adjustments to adopt ASU 2016-18. As part of our audit of the 2020 financial statements, we also audited the adjustments described in Note 2(s) that were applied to adopt ASU 2016-18 retrospectively in the 2019 financial statements. In our opinion, such adjustments are appropriate and have been properly applied.

Other Matters

Supplementary and Other Information

Our audit was conducted for the purpose of forming an opinion on the basic financial statements as a whole. The supplementary private and federal information on the financial statements is presented for purposes of additional analysis and is not a required part of the financial statements.

The information included in the supplementary private and federal information on the financial statements was derived from and relates directly to the underlying accounting data and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary private and federal information on the financial statements is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 13, 2020 on our consideration of the Gallery's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Gallery's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Gallery's internal control over financial reporting and compliance.

Notes to Financial Statements September 30, 2020 (In thousands)

(1) Organization

The National Gallery of Art (the Gallery) was created in 1937 for the people of the United States of America by a joint resolution of Congress, accepting the gift of financier and art collector Andrew W. Mellon. The Gallery is a nonprofit organization exempt from federal income taxes under the provisions of Section 501(c)(3) of the Internal Revenue Code.

The Gallery serves the United States in a national role by preserving, collecting, exhibiting, and fostering the understanding by the American public of original, great works of art. This mission and standard of excellence is central to every activity of the Gallery, from caring for and strengthening the collection to presenting special exhibitions and organizing public programs.

A substantial portion of the Gallery's operations is funded from annual federal appropriations. Since its founding, federal funds ensure the operation and maintenance and the protection and care of the nation's art collection enabling the Gallery to remain open 363 days a year at no charge to visitors. The Gallery also receives federal appropriations for the repair and restoration of its facilities.

In addition to federal appropriations, the Gallery receives private donations and earns income from investments. Private donations from individuals, foundations and corporations have provided support for art acquisitions and conservation, scholarly and scientific research, exhibitions, and education outreach programs.

(2) Summary of Significant Accounting Policies

(a) General

The financial statements are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (U.S. GAAP) under *FASB ASC 958, Not-for-Profit Presentation of Financial Statements.*

The Gallery receives annual federal appropriations to cover its core programs and renovation of its buildings as part of the budget approved annually by Congress and signed by the President. This is supplemented with income from endowments designated for current operating expenditures as well as gifts and grants designated by donors for other specific expenditures. All monies, related activities and balances from federal sources are referred to herein as "federal", while all other monies, related activities and balances are referred to herein as "private".

(b) Measure of Operations

The Gallery includes in its measure of operations federal and private support and revenue and expenses that are integral to its core program services: collections; special exhibitions; education, Gallery shops and public programs; and editorial and photography. The measure of operations excludes certain non-operating activities such as non-operating gifts and grants (endowment gifts and gifts for art acquisitions and capital projects), investment return less

Notes to Financial Statements September 30, 2020 (In thousands)

amounts designated for operations, acquisitions of works of art, depreciation and income tax expense, and changes in the environmental liability.

The Gallery's Board of Trustees appropriates only a portion of the Gallery's cumulative investment return for support of current operations and art acquisitions; the remainder is retained to support operations of future years and to offset potential market declines. The amount appropriated is computed under the Gallery's spending policy and is appropriated for use based on the underlying donor-imposed restrictions (see notes 5 and 10).

(c) Summarized Financial Information

The financial statements include certain summarized prior-year information in total only. Such information does not include sufficient detail to constitute a presentation in conformity with U.S. GAAP. Accordingly, such information should be read in conjunction with the Gallery's financial statements as of and for the year ended September 30, 2019, from which the summarized information was derived.

(d) Net Assets

The Gallery's net assets, support and revenue, expenses, and gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Gallery are classified and reported as follows:

- Without donor restrictions Net assets without donor restrictions consist of the Gallery's
 net investment in building improvements and other equipment purchased or constructed
 using federal funds less unfunded liabilities, and all other resources which are not subject
 to donor-imposed restrictions. At the discretion of the Gallery's Board of Trustees, private
 funds which are not expended for operating activities may be set aside in designated
 reserves and earmarked to cover future program costs or other contingencies.
- With donor restrictions Net assets with donor restrictions carry specific donor-imposed stipulations on the expenditure or other use of the contributed funds, including unexpended "no-year" federal appropriations received for special exhibitions and for the repair, renovation and restoration of its buildings. Donor-imposed restrictions may expire by the passage of time or as a result of fulfillment of the donor's stipulations. For gifts restricted for capital additions, net assets are released from restriction when assets are placed in service.

Other net assets with donor restrictions include net assets with stipulations that require that the corpus of the gifts be retained permanently with only the income to be used to support operations or another specified purpose.

(e) Cash and Cash Equivalents

Cash and cash equivalents include interest-bearing demand deposits and appropriated amounts yet to be disbursed remaining on deposit with the U.S. Department of Treasury (or U.S. Treasury). The Gallery considers all highly liquid investments with an original maturity of

Notes to Financial Statements September 30, 2020 (In thousands)

three months or less at the date of purchase to be cash equivalents, except where such cash equivalents are held as part of a long-term investment strategy (see note 5).

The fund balances with U.S. Treasury consist of appropriated funds that are available to pay current liabilities and finance authorized purchase commitments of the Gallery. The Gallery's fund balances with U.S. Treasury are carried forward until such time as goods or services are received and payments are made, or until the funds are returned to the U.S. Treasury.

(f) Pledges Receivable

Unconditional promises to give to the Gallery in the future (pledges receivable) are recorded at the fair value of future cash flows, after providing an allowance for uncollectibility (Level 3 inputs). For unconditional promises to give recognized prior to October 1, 2008, a risk-free rate of return at the date of the gift was used. For unconditional promises to give recognized on or after October 1, 2008, a discount rate approximating the current market rate at the date of the gift is used. The resulting discount rates range from 2.2% to 4.6%. Conditional promises to give are recognized as income when the conditions stipulated by the donor are substantially met.

(g) Investments and Trusts Held by Others

Investments are generally reported at fair value. Common and preferred stocks and mutual funds are valued using readily determinable market prices. Alternative investments are reported at the estimated fair value as provided by the investment managers. The Gallery reviews and evaluates valuation methods and assumptions the investment managers use in determining the fair value. For investments valued based on manager reported net asset values, the Gallery applies procedures to assess the valuation, including comparing performance to relevant market indices and verifying that the underlying asset values agree with quoted market prices. Due to the inherent uncertainties of valuation of alternative investments, estimated values may differ from values that would have been used had a readily available market for the investments existed.

Purchases and sales of securities are reflected on a trade-date basis. Gains and losses on sales of securities are based on average historical value (cost of securities if purchased or the fair market value at the date of gift if received by donation). Dividend and interest income is recorded when earned on an accrual basis. In accordance with the policy of stating investments at fair value, the net change in unrealized appreciation or depreciation for the year is reflected in the statement of activities (see note 5).

The Gallery has been named as beneficiary in several irrevocable charitable trusts held by third parties. The Gallery's share of these trusts is generally recorded at current fair value. Income distributions from these trusts are recorded as investment income and changes in the value of these trusts are recorded as "change in value of split-interest agreements" in the statement of activities.

Notes to Financial Statements September 30, 2020 (In thousands)

(h) Property, Plant and Equipment

The land occupied by the Gallery's buildings was appropriated and reserved by the Congress of the United States for that purpose. No value has been assigned in the accompanying financial statements. Property, plant and equipment with a cost of \$50 or more is capitalized at cost and depreciated using the straight-line method over the useful life of the assets. These assets have been assigned a useful life as follows:

Buildings	50 years
Building improvements	up to 25 years
Equipment under capital lease	14 years
Equipment	5 - 10 years
Computer software	3 - 5 years

Other property items are expensed when purchased. Normal repairs and maintenance are charged to expense as incurred.

(i) Art Collections

The Gallery's art collections focus upon European and American paintings, sculpture, decorative arts, works on paper and photographs. In conformity with accounting policies generally followed by art museums, the value of art has been excluded from the statement of financial position.

The Gallery's collections are maintained for public exhibition, education and research in furtherance of public service, rather than for financial gain.

The Gallery acquires its art collections through purchase or by donations-in-kind. Only current year purchases made from specifically designated funds, not donations-in-kind, are reflected in the statement of activities. The Gallery does not deaccession any of its permanent collections.

(j) Accrued Leave

Annual leave is accrued as it is earned by employees and is included in personnel compensation and benefit costs. An unfunded liability as of the date of the financial statements is recognized for earned but unused annual leave by federal employees since this annual leave will be paid from future federal appropriations when the leave is used by employees. The amount accrued is based upon current pay of the employees.

(k) Unexpended Federal Multi-Year Appropriations

The Gallery's federal multi-year appropriations are recognized as revenue as expenditures are incurred throughout the year. The portion of these appropriations which are not obligated or expended are retained by the Gallery in accordance with federal guidelines and returned to the U.S. Department of Treasury five years after the expiration of the two-year obligation

Notes to Financial Statements September 30, 2020 (In thousands)

period. The remaining unexpended balances of these funds are classified as a liability on the statement of financial position.

(I) Revenue Recognition

In accordance with ASC 606, *Revenue from Contracts with Customers*, the Gallery recognizes revenue upon delivery of goods or services in an amount that reflects the consideration the Gallery expects to receive in exchange for the goods or services. The Gallery's revenue streams that fall under this guidance are derived primarily from membership dues and Gallery shops sales and other auxiliary services.

Membership Dues

Annual memberships with varying contribution amounts, anniversary dates, and levels of donor benefits are offered to the public. The valuation of benefits provided to donors is based on the fair value of the benefits offered for each membership level. The Gallery recognizes contribution revenue for the entire amount of the membership dues received, as the recognition of the benefit portion of the membership has been determined to be materially consistent with the recognition of the benefit portion as computed on a pro-rata basis over the varying membership periods.

Auxiliary Services

Revenue from auxiliary activities primarily includes sales from the Gallery's retail shops and commissions from contracted restaurant operations. Revenues from retail operations are recognized at the time of sale to the customer. Potential returns of merchandise under the Gallery's sales return policy are considered insubstantial in amount and are therefore not reflected in the Gallery's financial statements. Royalties from restaurant sales are received on a monthly basis and accrued as appropriate.

The Gallery's revenue streams falling outside the scope of ASC 606 include investment earnings, donor contributions, and federal appropriations. Recognition of investment earnings is described in note 2(g). Dividend and interest income and realized and unrealized gains and losses are recognized as either net assets without donor restrictions or net assets with donor restrictions, in accordance with applicable donor and legal requirements.

Donor Gifts

Donor contributions and unconditional pledges are recognized in the statement of activities according to the existence or absence of donor restrictions when received from the donor. Recognition of conditional donor pledges is deferred until the underlying conditions are substantially satisfied. See also note 2(f).

Federal Appropriations

Multi-year appropriations received from the federal government are conditional contributions as defined in ASU 2018-08, *Not-for-Profit Entities: Clarifying the Scope and the Accounting*

Notes to Financial Statements September 30, 2020 (In thousands)

Guidance for Contributions Received and Contributions Made. Multi-year appropriation revenue is recognized when qualifying expenditures are incurred and conditions of the appropriations are met. The unexpended balances are deferred until expended or returned to the federal government. See also note 2(k). Federal no-year appropriations are recognized as unconditional contributions restricted for the support of the Gallery's special exhibitions and for the repair, renovation, and restoration of its buildings. These appropriations are recognized in full as restricted revenue when received from the federal government.

(m) Employee Benefits

The Gallery offers its employees a comprehensive set of benefits including pension, health and life insurance, and workers compensation for injuries sustained on the job. All permanent employees of the Gallery, both federal and nonfederal, hired subsequent to January 1, 1984 participate in the Federal Employees' Retirement System (FERS). Employees hired prior to January 1, 1984 had the option of remaining under the Civil Service Retirement System (CSRS) or electing FERS.

The FERS retirement plan provides benefits from three sources: a basic defined benefit plan, social security, and the Thrift Savings Plan (TSP), a defined contribution plan similar to a 401(k). The TSP is administered by the Federal Retirement Thrift Investment Board, an independent agency of the U.S. government. All employees have the option to make tax-deferred contributions to the TSP and, in some instances, receive a matching portion from the Gallery.

The Gallery's current year contributions to the pension plans are recognized in the statement of activities, using rates established by the Office of Personnel Management (OPM), the agency with Government-wide responsibility for the oversight and administration of the plans. Consistent with reporting under multi-employer pension plans, the Gallery does not report CSRS and FERS assets, accumulated plan benefits or future liabilities, if any, applicable to its employees. This data is reported for plan participants by OPM (see note 14).

Gallery employees are also eligible to participate in the Federal Employees Health Benefit (FEHB) and the Federal Employees Group Life Insurance (FEGLI) programs, and may continue to participate in these programs after retirement. The Gallery's current year contributions to the retirement and healthcare and life insurance programs are recognized in the statement of activities.

The Federal Employees Compensation Act (FECA) provides income and medical cost protection to covered federal civilian employees injured on the job, to employees who have incurred work-related occupational diseases, and to beneficiaries of employees whose deaths are attributable to job-related injuries or occupational diseases. The FECA program is administered by the U.S. Department of Labor (DOL), which pays valid claims and subsequently seeks reimbursement from the Gallery.

Expense recognized in the Gallery's financial statements includes current amounts invoiced and amounts expected to be invoiced by DOL, as well as the change in the actuarially

Notes to Financial Statements September 30, 2020 (In thousands)

determined cost of expected future benefits. The actuarial FECA liability represents the liability for expected future benefits for death, disability, medical, and miscellaneous costs for approved cases. The actuarial liability is determined by DOL annually, as of September 30, using a method that utilizes historical benefits payment patterns related to a specific incurred period, wage inflation factors, medical inflation factors and other variables. This liability constitutes an extended future estimate of cost which will not be obligated against budgetary resources until the fiscal year in which DOL bills the cost to the Gallery. The cost associated with this liability cannot be met by the Gallery without further appropriation action.

(n) Imputed Financing Sources

In certain cases, costs of the Gallery, such as post-retirement pension and benefits, are paid out of funds appropriated to other federal agencies. As an example, OPM is required to administer and pay the costs of federal post-retirement pension programs. Actuarially derived cost factors are provided annually by OPM to the Gallery for use in the calculation of current period service cost. The excess of the computed service cost over employee withholding and amounts contributed by the Gallery represents imputed costs to be financed directly through the Civil Service Retirement and Disability Fund administered by OPM. Similarly, OPM provides cost factors to the Gallery for use in the calculation of the estimated cost of providing health and life insurance benefits to retired employees.

Imputed costs and offsetting federal funding sources for pension and post-retirement health and life insurance benefits are computed by the Gallery and presented in note 14. The Gallery does not recognize these imputed costs and off-setting financing sources in the statement of activities, as the amounts represent costs to be funded in future years by OPM.

(o) Contributed Services and Donated Assets

Volunteers provide assistance to various departments of the Gallery. The services provided by such volunteers do not meet the criteria for recognition of contributed services, and accordingly are not reflected in the accompanying financial statements.

Donated assets other than donations of art are recorded at fair value on the date of the gift. Gifts of long-lived assets are recorded as unrestricted revenue in the absence of donor-imposed restrictions.

(p) Functional Allocation of Expenses

The cost of providing various programs and other activities summarized on a functional and natural basis is shown in note 13. Included under the Collections category are the costs of the care and display of the Gallery's collections. Special exhibition expenses include travel, transportation of items, and other services necessary for the display of special exhibitions. Education, Gallery shops and public programs includes the cost of providing a wide array of lectures, tours, films, music, symposia and academic programs to the general public, in addition to Gallery shops' cost of goods sold and expenses. Editorial and photography expenses include the costs to produce the many publications produced by the Gallery. General and administrative expenses include costs for executive management, financial

Notes to Financial Statements September 30, 2020 (In thousands)

administration, human resources and legal services. Development expenses include those costs associated with individual and corporate gifts and grants, annual appeals and other fundraising efforts.

(q) Estimates

The preparation of the financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingencies at the date of the financial statements, and the reported amounts of support and revenue and expenses during the reporting period. Actual results could differ from these estimates.

(r) Risks and Uncertainties

In March 2020, the World Health Organization declared the novel coronavirus (COVID-19) a pandemic. Since this time, the Gallery has followed the operating guidelines of the federal Centers for Disease Control and Prevention and the government of the District of Columbia. Extensive measures have been implemented to protect the health and safety of both the Gallery's employees and its visitors. While some staff are currently working on-site to ensure continuity of essential operations and in conjunction with the process of a gradual, orderly reopening to the public, most Gallery employees have transitioned to working remotely. Given the uncertainty over the progression of the virus and governmental directives, there is no clear timetable for when Gallery operations will return to pre-pandemic status. COVID-19 has not materially impacted the Gallery's financial condition or financial statement presentation.

The Gallery invests in a variety of investment securities. Investment securities are exposed to risks such as interest rate, market, and credit risks. As a result, changes in the values of investment securities may occur that could materially affect the value of the Gallery's investments and its financial position.

(s) Reclassifications

Certain prior year balances have been reclassified to conform to current year presentation.

(t) Recent Accounting Pronouncements

In fiscal year 2020, the Gallery adopted FASB Accounting Standards Update (ASU) 2018-08, *Not-for-Profit Entities: Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made*. This ASU is intended to clarify and further the consistent treatment of accounting for grants and other transactions as contributions versus exchange transactions, and to improve guidance to better distinguish between conditional and unconditional contributions.

The Gallery has determined that its accounting treatment and financial statement presentation of federal appropriations, donor contributions, and other transactions are consistent with the guidance in ASU 2018-08, and as a result the adoption of this guidance has no impact on the Gallery's financial statements.

Notes to Financial Statements September 30, 2020 (In thousands)

The Gallery also adopted ASC 606, *Revenue from Contracts with Customers*, as amended, during the fiscal year. This guidance provides the framework for recognizing revenue from the delivery of goods and services in an amount that reflects the consideration expected to be received in exchange for those goods and services, and is intended to improve the consistency and comparability of revenue recognition practices across both for-profit and not-for-profit entities. The core principle of ASC 606 requires the recognition of revenue from the transfer of promised goods or services to customers as the entity's identified performance obligations are satisfied.

The Gallery has determined that its revenue recognition practices are materially consistent with the requirements of ASC 606, and therefore adoption of this standard has no impact on the Gallery's financial statements. However, revenue disclosures have been enhanced in accordance with the guidance in this standard.

ASU 2016-18, *Statement of Cash Flows: Restricted Cash*, was adopted during the fiscal year. The standard requires the inclusion of all cash balances in total cash and cash equivalents presented in the statement of cash flows, irrespective of classification on the balance sheet and irrespective of restrictions. Therefore, the cash balance in the Gallery's investment portfolio held by a custodian for future investment or operating purposes is included in total cash and cash equivalents presented in the statement of cash flows. The provisions of the ASU have been applied retrospectively to all periods presented.

(3) Financial Assets and Liquidity Resources

Federal appropriations provide for the daily operations and maintenance of the Gallery, in addition to support for special exhibitions and renovation and repair of the Gallery's buildings. Private donor endowments and gifts support Gallery programmatic activities and all art acquisitions. The Gallery maintains a policy of structuring its financial assets to be available as its general expenditures, liabilities, and other obligations come due. Cash required to meet operating needs of the Gallery is invested in short-term accounts.

Following is a reconciliation of the Gallery's total financial assets as of September 30, 2020 and 2019 to financial assets available to fund the Gallery's general expenditures for the following fiscal year. General expenditures include all programmatic and supporting operating expenses, including expenditures for capital renovations but not including art acquisitions.

Quasi-endowment assets include unrestricted funds designated by the Gallery's Board of Trustees to function as endowment funds supporting Gallery programs and operations, including the production of catalogues documenting the Gallery's collection, and operations of the library and music program, among others. The operating reserve has been established to provide necessary resources in the event of the following: 1) potential extended market declines, as it is the Gallery's policy to not spend from underwater endowment funds, 2) shortfalls in donor support and earned revenue during periods of economic recession, and 3) risk of potential losses for damage or theft of art works on loan to the Gallery in excess of insurance coverage. Capital reserves are required for non-federal capital additions and renovations and related obligations.

As of September 30, 2020 and 2019, \$6,280 and \$857 of the pledges receivable balance was receivable from related parties.

(5) Investments, Trusts Held by Others and Fair Value Measurement

As of September 30, 2020 and 2019, investments and trusts held by others consisted of the following:

	_	2020	2019
Pooled investment portfolio	\$	1,051,254	961,990
Trusts held by others		13,777	13,204

Loan to U.S. Treasury		5,000	5,000
Total	\$	1,083,406	993,753

In 1942, the Gallery, under authority of an Act of Congress, made a \$5,000 permanent loan to the U.S. Treasury. This loan bears interest at the higher of 4.00% or 0.25% below the average monthly rate for long-term funds paid by the U.S. Treasury (4% during fiscal year 2020). Interest income on this loan was \$203 for the fiscal years ended September 30, 2020 and 2019. The fair value of the loan to the U.S. Treasury approximates the carrying value.

As of September 30, 2020 and 2019, the carrying value of the Gallery's cash, cash equivalents and balances with U.S. Treasury, receivables, deferred charges and other assets, and accounts payable and accrued expenses approximate their fair values because of the terms and relatively short maturity of these assets and liabilities. The Gallery's investments in private equity, venture

capital, and real estate are valued based on the most current net asset value (NAV) adjusted for cash flows when the reported NAV is not at the measurement date.

The fair value of a financial instrument is the exit price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. The Gallery applies a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels:

- Level 1 Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Gallery has the ability to access as of the reporting date. Investments include investments in equity, real estate, and fixed income mutual funds that are traded in an active exchange market.
- Level 2 Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly as of the reporting date.
- Level 3 Valuations based on inputs that are unobservable and significant to the overall fair value measurement as of the reporting date. The determination of fair value for these financial instruments requires one or more inputs subject to significant management judgment or estimation. Trusts held by others are valued using Level 3 inputs. One trust is invested in real property and has been recorded at the value of the real property as of the date of the gift based on property valuations that involved significant judgments and estimation. Another trust is a perpetual trust invested in equity, fixed income securities, and mutual funds where the Gallery receives annual distributions but will never receive the trust's principal. The remainder of the trusts are invested in cash equivalents, mutual funds, and publicly traded equities.

Refundable advances represent a donor gift received in FY 2017 contingent upon the Gallery satisfying matching requirements by March 31, 2021 in accordance with the donor agreement. The donor accepted \$3,135 of matching gifts in FY 2019.

(8) Environmental Liability

In 2006 the Gallery, in conjunction with third party consultants, determined the cost of removing asbestos and other hazardous materials from the Gallery's buildings pursuant to the Clean Air Act as amended. The environmental liability was initially recorded at the estimated fair value calculated using inflation rates ranging from 1.9% to 2.6% and discount rates ranging from 4.6% to 4.9% (Level 3 inputs). The cost of the remediation is amortized over the useful life of the asset. The actual cost may vary from the current estimated cost at completion in the future due to inflation and the timing of implementing the various remedies. Management annually updates the total estimated costs for completion.

The Gallery's financial statements reflect an unfunded liability for environmental remediation clean-up costs as follows:

	 2020	2019

Future-funded federal liabilities represent environmental remediation, accrued vacation, and workers compensation liabilities to be funded with future fiscal year federal appropriations. Board designated reserves have been established to provide necessary resources in the event of potential extended market declines, as well as shortfalls in donor support and earned revenue during periods of economic recession, and to offset potential losses for damage or theft of art works on loan to the Gallery in excess of insurance coverage. Capital reserves fund non-federal capital additions and renovations and related obligations.

(10) Endowment Funds

The Gallery's endowment consists of 122 individual funds established for a variety of purposes. The endowment includes donor-restricted endowment funds and four funds designated by the Board of Trustees to function as endowment funds supporting Gallery programs and operations. As required by U.S. GAAP, net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law

The Gallery's Board of Trustees has resolved to be guided by the standards in the Uniform Prudent Management of Institutional Funds Act (UPMIFA), as enacted by the District of Columbia on January 23, 2008, in the management, investment, and expenditure of Gallery endowment funds although it is not required to do so as a matter of law. The Board has interpreted UPMIFA as allowing the Gallery to appropriate for expenditure or accumulate so much of an endowment fund as the Gallery determines is prudent for the uses, purposes and duration for which the endowment fund is established, subject to the intent of the donor as expressed in the gift instrument. Unless stated otherwise in the gift instrument, the assets in an endowment fund shall be donor-restricted assets until appropriated for expenditure by the Gallery. The corpus of the Gallery's endowment funds consist of (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment and (c) changes to the permanent endowment made in accordance with the direction of the applicable donor gift instrument. Earnings and accumulated appreciation of the endowment funds remain restricted until appropriated for expenditure by the Gallery in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Gallery considers the following factors when making a determination to appropriate or accumulate donor-restricted funds:

- The duration and preservation of the fund
- The purposes of the Gallery and the donor-restricted endowment fund
- General economic conditions
- The possible effect of inflation and deflation
- The expected total return from income and the appreciation of investments
- Other resources of the Gallery
- The investment policies of the Gallery

The Gallery has adopted investment and spending policies for endowment assets that are intended to provide a predictable stream of funding for programs while maintaining the purchasing power of the endowment. Under the investment policy, as approved by the Board of Trustees, the endowment assets are invested in a manner that reduces risk through diversification while obtaining a competitive rate of return. To satisfy its long-term rate-of-return, the Gallery relies on

Notes to Financial Statements September 30, 2020 (In thousands)

a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yields (interest and dividends). The Gallery targets a diversified asset allocation that utilizes fixed income and equity-based investments to achieve its long-term objectives within prudent risk constraints.

The Gallery's spending policy is based on an annual endowment spending rate of 5% of the average fair value of endowment investments at the end of the previous five years. This spending rate constitutes the Board's annual appropriation for spending endowment earnings to support both the purchase of art and support of operations. Funds appropriated for art acquisition may exceed the 5% based on the availability of works of art for acquisition.

The following table summarizes the change in the Gallery's endowment funds during the years ended September 30, 2020 and 2019:

Funds with Deficiencies

From time to time the fair value of assets of individual donor-restricted endowment funds may fall below the level required to be maintained in perpetuity in accordance with UPMIFA or the applicable donor gift document, creating an "underwater" endowment fund. It is the policy of the Gallery not to spend from underwater funds.

There were no underwater endowment funds as of September 30, 2020. The following table summarizes the Gallery's funds with deficiencies as of September 30, 2019:

	_	2019
Fair value of endowment funds	\$	4,597
Original gift corpus	_	(4,650)
Underwater deficiency	\$	(53)

(12) Federal Appropriations

The Gallery is funded primarily by two Congressional appropriations: one appropriation covers the Gallery's salaries, benefits and expenses, a portion of which is designated for special exhibitions, and the second appropriation provides funds necessary for the repair, restoration and renovation of the Gallery's buildings. The appropriation received for salaries, benefits and expenses is a two-year appropriation that must be obligated by the end of the second fiscal year, with the exception of the portion of the appropriation designated for special exhibitions expenses, which is available until it is expended. The appropriation for the repair, restoration, and renovation of the Gallery's buildings is available until expended. The fiscal year 2020 salaries and expenses appropriation includes \$3,660 for no-year special exhibitions funding.

The Gallery's federal appropriations received in the fiscal years ending 2020 and 2019 are reconciled to federal appropriation revenue recognized as follows:

	_		2020		
	_				
		Salaries and	restoration		2019

Notes to Financial Statements September 30, 2020 (In thousands)

Certain costs including depreciation expense, utilities, building maintenance, security, information systems, and other operating costs have been allocated among program and supporting services. These costs are allocated based on various factors such as square footage, head count, direct labor dollars, and desktop locations.

(14) Employee Benefits

Total pension expense recognized in the Gallery's financial statements was \$11,612 and \$9,724 for the years ended September 30, 2020 and 2019, respectively. These amounts do not include pension expense financed by OPM and imputed to the Gallery of \$555 and \$2,716, respectively. To the extent that Gallery employees are covered by the thrift savings component of FERS, the Gallery's payments to the plan are recorded as operating expenses. The Gallery's costs associated with the thrift savings component of FERS for the years ended September 30, 2020 and 2019, were \$3,300 and \$3,116, respectively.

In addition, the Gallery makes matching contributions for all employees who are eligible for current health and life insurance benefits. The Gallery's contributions for active employees are recognized as operating expenses. During fiscal years 2020 and 2019, the Gallery contributed \$6,740 and \$6,728, respectively. Using the cost factors supplied by OPM, the Gallery has not recognized as an expense in its financial statements the future cost of post-retirement health benefits and life insurance for its employees. These costs amounted to approximately \$5,801 and \$5,471 during fiscal years 2020 and 2019, respectively, and are financed by OPM and imputed to the Gallery.

The Gallery has a commitment to certain key employees whereby the Gallery will pay those employees a specified amount at a future point in time. The cost of these benefits is accrued over the key employees' future years of service to the Gallery. The cost of these benefits for fiscal years 2020 and 2019 total \$200 and \$107, respectively, and is recognized as an expense in the statement of activities and as a liability included in accounts payable and other liabilities in the accompanying statement of financial position.

(15) Income Taxes

The Gallery is a nonprofit organization exempt from federal income taxes under the provisions of Section 501(c)(3) of the Internal Revenue Code. As a 501(c)(3) organization, the Gallery is taxed only on unrelated business income. Investment earnings are the primary source of the Gallery's unrelated business income. Tax positions are recognized or derecognized based on a more-likely than-not threshold. This applies to positions taken or expected to be taken in a tax return. The Gallery is not aware of any uncertain tax positions.

(16) Lease Commitments

The Gallery has entered into several operating leases for warehouse and office space, which continue through December 31, 2028. The terms of these operating leases include additional rent for operating expenses, real estate taxes, utilities and maintenance. Future minimum lease payments under these leases are as follows:

Fiscal Year Ending:

2021	\$ 5,465
2022	5,589
2023	5,717
2024	3,914
2025	1,262
Thereafter	 4,258
Total minimum lease payments	\$ 26,205

Rental expense was approximately \$7,002 and \$6,607 for the years ended September 30, 2020 and 2019, respectively.

(17) Subsequent Events

The Gallery has performed an evaluation of subsequent events through November 12, 2020, which is the date the financial statements were available to be issued, noting no events which affect the financial statements as of September 30, 2020.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

The Board of Trustees The National Gallery of Art:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the National Gallery of Art (the Gallery), which comprise the statement of financial position as of September 30, 2020, and the related statements of activities, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated November 13, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Gallery's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Gallery's internal control. Accordingly, we do not express an opinion on the effectiveness of the Gallery's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Gallery's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Gallery's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Gallery's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
