

Gemini G.E.L Online Catalogue Raisonné

The Gemini G.E.L. (Graphic Editions Limited) online catalogue raisonné (nga.gov/gemini), launched in 2001, presented publications of the acclaimed Los Angeles print and sculpture workshop from its beginning in 1966 through 2007. Many of these prints and sculptures are in the collection of the National Gallery of Art as part of the Gemini G.E.L. Archive which includes an example of each of Gemini's editions.

At the end of 2024, the National Gallery of Art archived the Gemini G.E.L. Online Catalogue Raisonné website due to technology issues. The Archives preserved the site to ensure ongoing access to this important resource—the archived version is available [here](#). Note, the search function on the site could not be preserved; however, the alphabetical index with links to each object record is available [here](#). Additionally, this text-searchable PDF version of the index below links directly to pages within the archived index for easier access to object records.

Gemini G.E.L. site index for object pages
